PROFILE SUMMARY

Frontend Web Developer and Flutter Mobile Developer with hands-on experience building responsive web and mobile applications for real-world projects. Proficient in HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind, Laravel, Flutter, Bloc, and RESTful API integration. Experienced in developing reusable UI components, managing component state, implementing responsive layouts, debugging, performance optimization, and Git version control. Familiar with modern frontend development practices and Agile/Scrum collaboration.

EDUCATION

Padang State University (Universitas Negeri Padang)

Bachelor of Informatics Engineering Education (S1 Teknik Informatika)

September 2020 – August 2025 | GPA: 3.29/4.00

PROFESIONAL EXPERIENCE

CV Innovative Tech Solutions - Frontend Website Developer & Mobile Application Developer

September 2024 – October 2025

- Developed responsive web applications using HTML5, CSS3, JavaScript (ES6+), Tailwind, Bootstrap, and React.js to deliver user-friendly interfaces across different screen sizes.
- Built reusable React components and implemented React Hooks, including useState and useEffect, to manage component state and lifecycle-related behavior.
- Integrated frontend interfaces with RESTful APIs to retrieve and display dynamic data in web applications.
- Developed cross-platform mobile applications using Flutter and integrated RESTful APIs, optimizing asynchronous data handling to improve UI screen load times by 25%.
- Performed feature development, debugging, code optimization, and Git version control, including deployment to Google Play Store.
- Contributed to the development of three core mobile applications: Balian, E-Depot, and Siladu, as well as a company website, delivering modular components and meeting project release milestones.

RSKB Ropanasuri - Frontend Website Developer

August 2023 – March 2024

- Engineered core Hospital Management Information System (SIMRS) interfaces, streamlining daily clinical operational workflows and patient records access for healthcare staff.
- Used HTML, CSS, JavaScript, Bootstrap, Laravel, and Git in frontend development.
- Developed responsive and user-friendly interfaces based on system requirements.

PT Argenesia - Frontend Website Developer

February 2023 – March 2024

- Developed responsive web application interfaces based on client requirements using React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind, and Bootstrap.
- Built reusable UI components using React and React Hooks to support interactive interfaces and maintainable frontend code.
- Implemented responsive layouts and integrated RESTful APIs to support dynamic data rendering and communication with backend services.
- Improved interface consistency, debugging, and code maintainability while ensuring compatibility across different screen sizes.
- Collaborated with backend developers, QA engineers, and project managers using Git and Agile development methodologies.

Teaching Factory Universitas Negeri Padang - Frontend Website Developer

February 2022 – January 2023

- Developed web-based application interfaces and features using HTML, CSS, JavaScript, and Bootstrap.
- Integrated APIs with the backend and ensured smooth and reliable data flow.
- Contributed to the development of the FIP UNP, MNK Group, and Akreasi websites.

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

Kelas Coding Universitas Negeri Padang - Instruktur

October 2024 – December 2024

- Provided basic training in HTML, CSS, and JavaScript to participants.
- Guided participants in developing landing pages as their final projects.
- Developed learning materials and assessments to support participants' progress.

CORE SKILLS

- Mobile Development: Flutter, Dart, BLoC, HTTP, Cross-Platform App Development
- Frontend Development: React.js, React Hooks, HTML5, CSS3, JavaScript (ES6+), Bootstrap, Responsive Web Design
- React Development: Functional Components, JSX, Props & State, useState, useEffect, Reusable Components
- API & Integration: RESTful API Integration, JSON Data Handling, Asynchronous JavaScript
- Tools & Version Control: Git, GitHub, npm
- Development Practices: UI/UX Implementation, Debugging, Code Optimization, Agile/Scrum
- Deployment: Google Play Console, Google Play Store Deployment

ACHIEVEMENTS

- BNSP Junior Web Programmer Certification.
- App Deployment Achievement – Google Play Store (5-Star Average Review) (2024).
- Bootcamp Full-Stack Laravel Flutter: Build e-Wallet Mobile Apps (2025).
